The City approves the Facility's traffic control which is directed by authorized staff.
2. The City shall be responsible for maintenance of Facility property, the safety of persons and materials on the Facility property and keeping the Facility secure. It shall not be necessary for the City to have a person present at all times on the site where the waste will be stored.
3. The City shall notify and obtain approval from the District prior to making any changes in the maintenance and/or operations of the Facility. The City shall notify the District of any changes in the management of the Facility.
4. The City shall provide water service for OSHA required safety shower and eyewash equipment at the Facility.
5. The City shall provide on-site restroom facilities for use by District personnel during the hours the Facility is occupied.
6. The City will procure and post signage and information brochures on Household Hazardous Waste and Very Small Quantity Generated waste management at the Clean Bear Sites. Clean Bear Sites are defined as solid waste disposal areas.
7. The City shall publicize to its residents the need to properly reduce, recycle, store, transport and dispose of Household Hazardous Waste and inform its residents of the availability of nearby household hazardous waste collection facilities for safe management of household hazardous waste, in the manner and form recommended by District.
8. The City shall publicize to its residents the maximum quantities of hazardous waste allowed for transportation which are containers no larger than 5 gallons and maximum quantities of 15 gallons or 125 pounds per trip brought to a household hazardous waste collection facility per participant.

Containers consisting of glass, metal, cardboard or paper will not be accepted.
11. Agreement Compliance. City agrees to comply with all applicable Federal, State and County laws, regulations and policies in carrying out its responsibilities under this Agreement.

RESPONSIBILITIES AND DUTIES OF THE DISTRICT

12. The District shall continue to operate a comprehensive Household Hazardous Waste Program (Program) for the safe collection, recycling, treatment and disposal of household hazardous waste, including universal waste, Home-generated Sharps (HGS) and pharmaceutical waste excluding controlled substances. The District program shall be based on a Central Processing Facility and a regional network of collection centers sited so as to provide safe, convenient service to the public in a cost-effective manner.

If there are any changes to the "Satellite Facilities Operations Manual", the District shall provide special training sessions to District personnel as soon as practicable with respect to said changes.
17. The "Satellite Facilities Operations Manual" shall be consistent with or exceed all state and federal regulations applicable to Household Hazardous Waste facilities and amended as necessary.
