G. Cultural Competency

The State mandates counties to develop and implement a Cultural Competency Plan (CCP). This Plan applies to all DBH services. Policies and procedures and all services must be culturally and linguistically appropriate. Contract agencies are included in the implementation process of the most recent State approved CCP for the County of San Bernardino and shall adhere to all cultural competency standards and requirements. In addition, contract agencies will maintain a copy of the current DBH CCP.

1. Cultural and Linguistic Competency

Cultural competence is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or

among consumer providers and professionals that enables that system, agency, or those professionals and consumer providers to work effectively in cross-cultural situations.

- a. To ensure equal access to quality care for diverse populations, Contractor shall adopt the federal Office of Minority Health Cultural and Linguistically Appropriate Service (CLAS) national standards.

Such studies are critical to designing and planning for providing appropriate and effective mental health and substance use disorder treatment services.
- c. Upon request provide DBH with cultural specific service options available to be provided by Contractor.
- d. DBH recognizes that cultural competence is a goal toward which professionals, agencies, and systems should strive. Becoming culturally competent is a developmental process and incorporates at all levels the importance of culture, the assessment of cross-cultural relations, vigilance towards the dynamics that result from cultural differences, the expansion of cultural knowledge, and the adaptation of services to meet culturally-unique needs. Providing medically necessary specialty mental health and substance use disorder treatment services in a culturally appropriate and responsive manner is fundamental in any effort to ensure success of high quality and cost-effective behavioral health services. Offering those services in a manner that fails to achieve its intended result due to cultural and linguistic barriers does not reflect high quality of care and is not cost-effective.

 - i. Technical assistance to the Contractor regarding cultural competency implementation.
 - ii. Demographic information to the Contractor on service area for service(s) planning.
 - iii. Cultural competency training for DBH and Contractor personnel.

Contractor shall upon request from the County, provide information and/or reports as to whether its provider staff completed cultural competency training.

- iv. Interpreter training for DBH and Contractor personnel, when available.
 - v. Technical assistance for the Contractor in translating mental health and substance use disorder services information to DBH's threshold language (Spanish). Technical assistance will consist of final review and field testing of all translated materials as needed.
 - vi. Monitoring activities administered by DBH to demonstrate documented capacity to offer services in threshold language or contracted interpretation and translation.
 - vii. Contractor's written organizational procedures must be in place to determine multilingual and competency level(s).
 - viii. The Office of Cultural Competence and Ethnic Services (OCCES) may be contacted for technical assistance and training offerings at cultural_competency@dbh.sbcounty.gov or by phone at (909) 386-8223.
- f. Contractor agrees to provide culturally competent services. Contractor shall ensure its policies, procedures, and practices are consistent with the principles outlined and are embedded in the organizational structure, as well as being upheld in day-to-day operations. Contractor shall ensure translation services are available for beneficiaries, as needed.

H. Access by Public Transportation

Contractor shall ensure that services provided are accessible by transportation.

I. Site Inspection

Contractor shall permit authorized County, State, and/or Federal Agency(ies), through any authorized representative, the right to inspect or otherwise evaluate the work performed or being performed hereunder including subcontract support activities and the premises which it is being performed. The Contractor shall provide all reasonable assistance for the safety and convenience of the authorized representative in the performance of their duties. All inspections and evaluations shall be made in a manner that will not unduly delay the work.

The Contractor shall notify the 2-1-1 San Bernardino County Inland Empire United Way of any changes in program services, location, or contact information within ten (10) days of the change. Services performed as a result of being included in the 2-1-1 database are separate and apart from the services being performed under this Contract and payment for such services will not be the responsibility of the County.

N. Damage to County Property, Facilities, Buildings, or Grounds (If Applicable)

All services performed by the Contractor, regardless of funding, shall be entered into the County's billing and transactional database system no later than the seventh (7th) day of the following month. Reports will be run by DBH Fiscal after this date and the reports will be used for payment of services.

R. Drug and Treatment Access Report

Contractor shall comply with all State regulations regarding the Drug and Treatment Access Report (DATAR) requirements and participate in the DATAR process, as required by the State, which includes, but is not limited to, enrollment in DHCS's web-based DATAR program for submission of data, accessible on the DHCS website upon execution of this contract.

IV. Funding

- A. This Agreement is contingent upon sufficient funds being made available by Federal, State, and/or County governments for the term of the Agreement. Funding is by fiscal year period July 1 through June 30. Costs and services are accounted for by fiscal year. Any unspent fiscal year allocation may not roll over and may not be available in future years. Any unspent allocation by Fiscal Year may, upon County review and approval, be available within the contract term. Each fiscal year period is settled to Federal and/or State cost reporting accountability.
- B. The maximum financial obligation of the County under this Agreement shall not exceed the sum referenced in the Schedules A and B. The maximum financial obligation is further limited by fiscal year, funding source and service modalities as delineated on the Schedules A and B. Contractor may not transfer funds between funding sources or modes of services, or go over 15% of a budgeted line item without the prior written approval from DBH. Budget line items applicable to the 15% rule are: (1) Total Salaries & Benefits and (2) Individual Operating Expense items. The County has the sole discretion of transferring funds between funding sources or modes of services.

1. It is understood between the parties that the Schedules A and B are budgetary guidelines. Contractor must adhere to the budget by categorical funding outlined in the Schedule A of the Contract as well as track year-to-date expenditures. Contractor understands that costs incurred for services not listed or in excess of categorical funding in the Schedule A shall result in non-payment to Contractor for these costs.
- C. Contractor agrees to renegotiate the dollar value of this Contract, at the option of the County, if the annualized projected units of service (minutes/hours of time) for any mode of service based on claims submitted for the operative fiscal year, is less than the target percentage of the projected minutes/hours of time for the modes of service as reported in Schedules A and B.
- D. If the annualized projected units of service (minutes/hours of time) for any mode of service, based on claims submitted for the operative fiscal year, is greater than/or equal to 110% of the projected units (minutes/hours of time) reported in the Schedules A and B, the County and Contractor agree to meet to discuss the feasibility of renegotiating this Agreement. Contractor must timely notify the County of Contractor's desire to meet.
- E. County will take into consideration requests for changes to Contract funding, within the existing contracted amount. All requests must be submitted in writing by Contractor to DBH Fiscal no later than March 1 for the operative fiscal year.
- F. A portion of the funding for these services includes Federal Funds. The Federal CFDA numbers are 93.959 and 93.778.
- G. In the event of a reduction of the County's allocation of Federal, State or County funding for substance use disorder programs, the Contractor agrees to accept a reduction in funding under this Contract to be determined by the County.
- H. Contractor shall maximize the Federal Financial Participation (FFP) reimbursement by claiming all possible Medi-Cal services. Therefore, Contractor must determine on a monthly basis, client eligibility for or entitlement to any and all of the funding used by the County for services to pay for services under the terms and conditions of this Contract. Contractor shall then bill County for those services based on client eligibility or entitlement. Failure to verify eligibility or comply with all program and funding requirements will result in non-payment of services.
 1. The County may not be responsible for beneficiaries that do not reside within County boundaries and do not meet eligibility.
- I. The Components of Outpatient Treatment services are:

- 1) Intake: The process of determining that a client meets the medical necessity criteria and a client is admitted into a substance use disorder treatment program. Intake includes the evaluation or analysis of substance use disorders; the diagnosis of substance use disorders; and the assessment of treatment needs to provide medically necessary services. Intake may include a physical examination and laboratory testing necessary for substance use disorder treatment.
- 2) Individual Counseling: Contacts between a client and a therapist or counselor. Services provided in-person, by telephone or telehealth.
 - All Outpatient Treatment clients will have available one (1) individual counseling session per month. Individual counseling means a face-to-face meeting with a therapist or counselor with one (1) individual counseling session lasting 45 minutes. Individual counseling sessions are for treatment. Time spent charting is not included within the 45 minute individual counseling session.

- 3) Group Counseling: Face-to-face contacts in which one or more therapists or counselors treat two (2) or more clients at the same time with a maximum of twelve (12) in the group, focusing on the needs of the individuals served.
 - All Outpatient Treatment clients will have available a minimum of two (2) groups per week with group counseling lasting 90 minutes. Group counseling sessions are for treatment. Time spent charting is not included within the 90 minute group counseling session.
- 4) Family Therapy: The effects of substance use disorders are far-reaching and client's family members and loved ones also are affected by the disorder. By including family members in the treatment process, education about factors that are important to the client's recovery as well as their own recovery can be conveyed. Family members can provide social support to the client, help motivate the client to remain in treatment, and receive help and support for their own family recovery as well.
- 5) Client Education: Provide research based education on substance use disorders, treatment, recovery, and associated health risks.
- 6) Medication Services: The prescription or administration of medication related to substance use treatment services, or the assessment of the side effects or results of that medication conducted by staff lawfully authorized to provide such services and/or order laboratory testing within their scope of practice or licensure.
- 7) Collateral Services: Sessions with therapists or counselors and significant persons in the life of the client, focused on the treatment needs of the client in terms of supporting the achievement of the client's treatment goals. Significant persons are individuals that have a personal, not official or professional, relationship with the client.
- 8) Crisis Intervention Services: Contact between a therapist or counselor and a client in crisis. Services shall focus on alleviating crisis problems. "Crisis" means an actual relapse or an unforeseen event or circumstance which presents to the client an imminent threat of relapse. Crisis intervention services shall be limited to the stabilization of the client's emergency situation.
- 9) Treatment Planning: The provider shall prepare an individualized written treatment plan (ITP), based upon information obtained in the intake and assessment process. The ITP shall be completed upon intake and then updated every subsequent 90 days, unless there is a change in treatment modality or significant event that would then

require a new ITP. The ITP shall include: a statement of problems to be addressed, goals to be reached which address each problem, action steps which shall be taken by the provider and/or client to accomplish identified goals, target dates for accomplishment of action steps and goals, and a description of services including the type of counseling to be provided and the frequency thereof. ITPs have specific quantifiable goal/treatment objectives related to the client's substance use disorder diagnosis and multidimensional assessment. The ITP shall identify the proposed type(s) of interventions/modality that includes a proposed frequency and duration. The ITP shall be consistent with the qualifying diagnosis and shall be signed by the client and the Medical Director.

- Client progress in Outpatient Treatment and/or IOT treatment will be reviewed every 30 days. At the time of the 90-day treatment period, the service provider shall evaluate and document the need for continued treatment.

10) Discharge Services: The process to prepare the client for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the client to essential community treatment, housing and human services.

Structured programming services are provided to clients (a minimum of nine hours with a maximum of 19 hours a week for adults provided at minimum 3 hours per day, 3 days per week, and a minimum of six hours with a maximum of 19 hours a week for youth) when determined after assessment utilizing the ASI and utilizing ASAM criteria to determine the appropriate level of care and by a Medical Director or LPHA to be medically necessary and in accordance with an individualized treatment plan. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within thirty (30) days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Application and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
7. User IDs and Password Controls. All users must be issued a unique user name for accessing DBH PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DBH PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least three (3) years after occurrence.
12. Access Controls. The system providing access to DBH PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
