premium for such policy and surety bond from the proceeds of the 2020 Bonds and to approve changes to the Indenture to the extent necessary to conform to the terms of the Commitments.

EXHIBIT A

GOOD FAITH ESTIMATES 2020 CEDAR GLEN TAX ALLOCATION REFUNDING BONDS

The good faith estimates set forth herein are provided with respect to the 2020 Bonds in accordance with California Government Code Section 5852.1. Such good faith estimates have been provided to the Successor Agency by CSG Advisors Incorporated (the Successor Agency's "Municipal Advisor") in consultation with Stifel, Nicolaus & Company, Incorporated, the Underwriter of the 2020 Bonds.

Principal Amount. The Municipal Advisor has informed the Successor Agency that, based on the Successor Agency's financing plan and current market conditions, its good faith estimate of total gross proceeds of the 2020 Bonds is **\$4,435,000**, which includes the estimated principal amount of the 2020 Bonds of **\$3,970,000** (the "Estimated Principal Amount"), plus approximately **\$465,000** of net premium estimated to be generated based on current market conditions. Net premium is generated when, on a net aggregate basis for a single issuance of bonds, the price paid for the bonds is higher than the face value of such bonds.

True Interest Cost of the Bonds. The Municipal Advisor has informed the Successor Agency that, assuming that the Estimated Principal Amount of the 2020 Bonds is sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the true interest cost of the 2020 Bonds, which means the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the purchase price received for the 2020 Bonds, is **3.48%**.

Finance Charge of the Bonds. The Municipal Advisor has informed the Successor Agency that, assuming that the Estimated Principal Amount of the 2020 Bonds is sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the finance charge for the 2020 Bonds, which means the sum of all fees and charges paid to third parties (or costs associated with the 2020 Bonds), is **\$254,000**.

Amount of Proceeds to be Received. The Municipal Advisor has informed the Successor Agency that, assuming that the Estimated Principal Amount of the 2020 Bonds is sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the amount of proceeds expected to be received by the Successor Agency for sale of the 2020 Bonds, less the finance charge of the 2020 Bonds, as estimated above, and any reserves or capitalized interest paid or funded with proceeds of the 2020 Bonds, is **\$3,776,000**.

Total Payment Amount. The Municipal Advisor has informed the Successor Agency that, assuming that the Estimated Principal Amount of the 2020 Bonds is sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the total payment amount, which means the sum total of all payments the Successor Agency will make to pay debt service on the 2020 Bonds, plus the finance charge for the 2020 Bonds, as described above, not paid with the proceeds of the 2020 Bonds, calculated to the final maturity of the 2020 Bonds, is **\$5,603,000**.

The foregoing estimates constitute good faith estimates only. The actual principal amount of the 2020 Bonds issued and sold, the true interest cost thereof, the finance charges thereof, the amount of proceeds received therefrom and total payment amount with respect thereto may differ from such good faith estimates due to (a) the actual date of the sale of the 2020 Bonds being

different than the date assumed for purposes of such estimates, (b) the actual principal amount of 2020 Bonds sold being different from the Estimated Principal Amount, (c) the actual amortization of the 2020 Bonds being different than the amortization assumed for purposes of such estimates, (d) the actual market interest rates at the time of sale of the 2020 Bonds being different than those estimated for purposes of such estimates, (e) other market conditions, or (f) alterations in the Successor Agency's financing plan, delays in the financing, additional legal work, or a combination of such factors and additional finance charges, if any, attributable thereto. The actual date of sale of the 2020 Bonds and the actual principal amount of 2020 Bonds sold will be determined by the Successor Agency based on the timing of the need for proceeds of the 2020 Bonds and other factors. The actual interest rates borne by the 2020 Bonds will depend on market interest rates at the time of sale thereof. The actual amortization of the 2020 Bonds will also depend, in part, on market interest rates at the time of sale thereof. Market interest rates are affected by economic and other factors beyond the control of the Successor Agency.
