BACKGROUND INFORMATION

Pursuant to Streets and Highways Code section 941, the Board of Supervisors may accept into the County Maintained Road System (CMRS) roads that are necessary to public convenience. The Department during routine examining of maintenance limits in our GIS mapping, staff noticed that Juniper Lane and Arth Drive had gaps in the described maintenance limits which needed to be corrected in order for the Department to perform maintenance. The Department has inspected the roads Juniper Lane, from Sequoia Place east to the current maintained section and Arth Drive, from Saxton Drive north to the current maintained section, in the Crestline Area and has determined that they meet the minimum standards for inclusion into the CMRS. Accepting these roads into the CMRS will ensure the appropriate infrastructure needed to support the existing land use is maintained.
