F.2 Consultant's "Cost Estimate", attached as Attachment A, hereto, sets out the Consultant's estimate of the cost (including wages) of completing the Scope of Work. The Cost Estimate was used by the County to determine the reasonableness of the cost of Consultant's estimate and is further used in making progress payments to Consultant and in making payment to Consultant in the event of the termination of the Contract prior to the completion of all items of work. Consultant is not entitled to any additional compensation by virtue of its costs (including wages) for any item of work exceeding the cost set forth in its Cost Estimate, including excess costs related to delays in completion of the Project. Each grant task has payment shall be made on a percent of task completed to the County's satisfaction pursuant to Attachment A.

- F.4** Consultant shall accept all payments from County via electronic funds transfer (EFT) directly deposited into the Consultant's designated checking or other bank account. Consultant shall promptly comply with directions and accurately complete forms provided by County required to process EFT payments.

- F.7** Funds made available under this Contract shall not supplant any federal, state or any governmental funds intended for services of the same nature as this Contract. Consultant shall not claim reimbursement or payment from County for, or apply sums received from County with respect to that portion of its obligations that have been paid by another source of revenue. Consultant agrees that it will not use funds received pursuant to this Contract, either directly or indirectly, as a contribution or compensation for purposes of obtaining funds from another revenue source without prior written approval of the County.
- F.8** Consultant shall adhere to the County's Travel Management Policy (8-02 and 08-02SP1) when travel is pursuant to this Contract and for which reimbursement is sought from the County. G. INDEMNIFICATION AND INSURANCE REQUIREMENTS

G.1 Indemnification

The Consultant agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability arising out of this Contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnities. The Consultant indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

G.2 Additional Insured

All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees, agents and volunteers as additional named insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

G.3 Waiver of Subrogation Rights

Consultant shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit Consultant and Consultant's employees or agents from waiving the right of subrogation prior to a loss or claim. Consultant hereby waives all rights of subrogation against the County.

G.4 Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

G.5 Severability of Interests

Consultant agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between Consultant and County or between County and any other insured or additional insured under the policy.

G.6 Proof of Coverage

Consultant shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the Contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Consultant shall maintain such insurance from the time Consultant commences performance of services hereunder until the completion of such services. Within fifteen (15) days of the commencement of this contract, Consultant shall furnish a copy of the Declaration page for all applicable policies and will provide complete certified copies of the policies and endorsements immediately upon request.

G.7 Acceptability of Insurance Carrier

Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum "Best" Insurance Guide rating of "A- VII".

G.8 Deductibles and Self-Insured Retention

Any and all deductibles or self-insured retentions in excess of \$10,000 shall be declared to and approved by Risk Management.

G.9 Failure to Procure Coverage

In the event that any policy of insurance required under this Contract does not comply with the requirements, is not procured, or is canceled and not replaced, County has the right but not the obligation or duty to cancel this Contract or obtain insurance if it deems necessary and any premiums paid by County will be promptly reimbursed by Consultant or County payments to the Consultant will be reduced to pay for County purchased insurance.

G.10 Insurance Review

Insurance requirements are subject to periodic review by County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Consultant agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of County.

- G.11** Consultant agrees to provide insurance set forth in accordance with the requirements herein. If Consultant uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, Consultant agrees to amend, supplement or endorse the existing coverage to do so.

Without in anyway affecting the indemnity herein provided and in addition thereto, Consultant shall secure and maintain throughout the contract term the following types of insurance with limits as shown:

- G.11.1** Workers' Compensation/Employer's Liability – A program of Workers' Compensation insurance or a state-approved, self-insurance program in an amount and form to meet all applicable requirements of the Labor Code of the State of California, including Employer's Liability with \$250,000 limits covering all persons including volunteers providing services on behalf of the Consultant and all risks to such persons under this contract.

If Consultant has no employees, it may certify or warrant to the County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Director of Risk Management.

With respect to Consultants that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance.

If Consultant is transporting one or more non-employee passengers in performance of contract services, the automobile liability policy shall have a combined single limit of two million dollars (\$2,000,000) for bodily injury and property damage per occurrence.

If Consultant owns no autos, a non-owned auto endorsement to the General Liability policy described above is acceptable.

H. SUCCESSORS AND ASSIGNS

H.1 This Contract shall be binding upon County and Consultant and their respective successors and assigns.

H.2 Neither the performance of this Contract, nor any part thereof, nor any monies due or to become due thereunder may be assigned by Consultant without the prior written consent and approval of County.

H.3 Death or Incapacity: If the Consultant transacts business as an individual, his/her death or incapacity shall automatically terminate this Contract as of the date of such event, and neither he/she nor his/her estate shall have any further right to perform hereunder, and County shall pay him/her or his/her estate the compensation payable under Article F, Fiscal Provisions, for any services rendered prior to such termination not heretofore paid, reduced by the amount of additional costs which will be incurred by County by reason of such termination. If there be more than one Consultant and any one of them die or become incapacitated and the others continue to render the services covered herein, County will make payment to those continuing as though there had been no such death or incapacity and County will not be obliged to take any account of the person who died or became incapacitated or to make any payments to such person or his estate. The provision shall apply in the event of progressive or simultaneous occasions of death or incapacity among any group of persons named as Consultant herein, and if death or incapacity befalls the last one of such group before this Contract is fully performed, then the rights shall be as if there had been only one Consultant.

I. RIGHT TO MONITOR AND AUDIT

I.1 The County, State and Federal government shall have absolute right to review and audit all records, books, papers, documents, corporate minutes, and other pertinent items as requested, and shall have absolute right to monitor the performance of Consultant in the delivery of services provided under this Contract. Consultant shall give full cooperation, in any auditing or monitoring

J. CORRECTION OF PERFORMANCE DEFICIENCIES

- J.1** Failure by Consultant to comply with any of the provisions, covenants, requirements or conditions of this Contract shall be a material breach of this Contract.

- J.2** In the event of a non-cured breach, County may, at its sole discretion and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:
- a. Afford Consultant thereafter a time period within which to cure the breach, which period shall be established at the sole discretion of County; and/or
 - b. Discontinue reimbursement to Consultant for and during the period in which Consultant is in breach, which reimbursement shall not be entitled to later recovery; and/or
 - c. Withhold funds pending duration of the breach; and/or
 - d. Offset against any monies billed by Consultant but yet unpaid by County those monies disallowed pursuant to Item "b" of this paragraph; and/or
 - e. Terminate this Contract immediately and be relieved of the payment of any consideration to Consultant. In the event of such termination, County may proceed with the work in any manner deemed proper by County. The cost to County shall be deducted from any sum due to Consultant under this Contract and the balance, if any, shall be paid by Consultant upon demand.

- J.3** Unless a remedy is specifically designated as exclusive, no remedy conferred by any of the specific provision of the Contract is intended to be exclusive of any other remedy, and each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder, now or hereafter existing at law or in equity or by statute or otherwise. The election of any one or more remedies by either Party shall not constitute a waiver of the right to pursue other available remedies.

Planning Manager
San Bernardino County – Land Use Services Department
385 N. Arrowhead Ave, 1st Floor
San Bernardino, California 92415

Subject: *Proposal for Professional Services for Supporting a SB2 Planning Grant*

Dear Ms. Watkins:

Dudek is pleased to provide this proposed scope of work to support the County of San Bernardino's SB 2 Planning Grant work to streamline environmental review for future projects. We have provided task level information and cost estimate per task based on our coordination and discussions. We understand, however, that due to the scale and custom nature of this project, flexibility over the duration of the project will be required. We will work with the County to meet both the County's objectives and the purpose of SB 2 and welcome the opportunity to refine this scope and cost estimate as needed.

Scope of Work

A Environmental Technical Studies

Dudek will assist the County with development of detailed, project-level environmental technical studies as identified in the Countywide General Plan EIR mitigation requirements.

A.1 Initiation and Scoping

Dudek will work with the County to identify and pre-screen areas in the County with limited environmental constraints, building upon the work completed as part of the Countywide General Plan effort and using desktop level assessment techniques (historical data and records research and review.) The scoping phase is anticipated to assist in identifying the geographical priorities for future development that will be further refined in the CEQA Streamlining scope.

Following the identification of preferred geographical areas, Dudek will work with the County to identify the appropriate environmental tech studies, which may include: biological resources, cultural resources, geology and soils, hazards and hazardous materials, and transportation/traffic. Based upon the preferred geographic areas, Dudek will conduct field reconnaissance of the project sites and surrounding areas to identify baseline conditions and will provide the County with a memorandum outlining the technical studies and survey/analysis boundaries that can be accommodated based on the budget allocation for technical study preparation. Deliverables for this task will include:

- Attendance at a Kick-Off and Scoping Meeting

Ms. Karen Watkins

Subject: Proposal for Professional Services for Supporting a SB2 Planning Grant

- Memorandum describing Tech Studies to be completed by Dudek

A.2 Preliminary Draft Analysis

Based on the County approved memorandum outlining the scope and coverage for technical studies, Dudek's technical specialists will initiate their detailed assessment of existing conditions, literature review, resources assessment, and impact analysis. Field surveys for biological and/or cultural resource assessments will be scheduled and coordinated through the County to ensure access to individual properties. Deliverables for this task will include:

- Field survey and data gathering and analysis for each tech study identified in Task 1.1

A.3 Draft Analysis, Findings, and Recommendations

Dudek will prepare draft technical reports for each study area and will provide the reports and reference data/research to the County in PDF format.

Dudek will meet with the County to review the Preliminary Draft Analysis reports. Input from the County will be incorporated into updated draft technical reports that will be provided in PDF format for County review. Deliverables for this task will include:

- Preliminary Draft Analysis and Reporting in PDF format
- Attendance at review meeting

A.4 Final Findings, and Recommendations

Dudek will incorporate County feedback from the updated draft technical reports in a Final Draft Report format for each technical study. The Final Draft Reports will be provided to the County in PDF format for review. Deliverables for this task will include:

- Final Draft Analysis and Reporting in PDF format
- Attendance at review meeting

A.5 Approval

Dudek will meet with County staff to review the Final Draft reports and incorporate any feedback in the Final Reports for approval and acceptance by the County. Deliverables for this task will include:

- Final Technical Study Reports in PDF format
- Attendance at review meeting

Ms. Karen Watkins

Subject: Proposal for Professional Services for Supporting a SB2 Planning Grant

Project Management and Coordination

The above tasks also include time and budget to cover Dudek's Project Manager and key staff participation in team conference calls and meetings as on-going project management and coordination for the duration of the project. Our cost estimate is based on the following participation and schedule:

- Up to 10 conference calls
- Up to 2 in-person meetings
- Project Management for estimated 18 months

B CEQA Streamlining

Dudek will engage the services of PlaceWorks to provide CEQA Streamlining Guide and Tools. PlaceWorks scope of services includes:

B.1 Project Streamlining

PlaceWorks will coordinate with the County, Dudek, and other technical consultants, as applicable to identify the goals and objectives of the project and compliance with SB 2 grant requirements. This task will include our attendance at a kickoff meeting and ongoing CEQA input to help guide the strategy and approach to the project.

It is anticipated that during this phase of the project, the team will determine the geographical priorities for project-level studies as well as topical focus for the studies. The strategy is anticipated to determine the most efficient use of grant funds to streamline future process for County projects. This will require County input to regarding the anticipated level of activity/applications by area. This strategy will combine County-identified priority areas with technical input for resources. It is anticipated that at this stage, the technical team will preliminarily identify where technical studies are most likely to eliminate areas with limited natural resources and 'close out' the need for future technical studies, as well as determine areas where the technical team can perform the detailed analysis required to identify the mitigation needed to address CEQA requirements (and eliminate the need for future project-level analysis for those areas).

PlaceWorks will work with the County, Dudek and the balance of the technical team to formalize the strategy and approach for the CEQA, streamlining portion of the project. We will produce a draft report for consensus with the team. Deliverables for this task will include:

- Memorandum describing CEQA approach to proposed streamlining (guidance and potential screening tools by sub-region and environmental resource)

B.2 CWP EIR Tiering Standards

PlaceWorks will review preliminary technical study results and work with the project team to refine focus for streamlining guidelines by sub region and/or community. As appropriate, we will coordinate with the technical team

Ms. Karen Watkins

Subject: *Proposal for Professional Services for Supporting a SB2 Planning Grant*

to prepare composite mapping to visually identify areas to pre-screen for environmental clearance. Deliverables for this task will include:

- Coordination on composite mapping for pre-screening based on uniform policies and standards

B.3 CWP EIT Tiering Guidance

Based on the results of the previous tasks, PlaceWorks will develop a draft screening methodology and flowchart for County of San Bernardino projects. It is anticipated that draft guidelines will be developed for County staff use, and a separate guidance package for project applicants. The flowchart and guidelines will address:

- Projects exempt from CEQA
- Criteria to determine projects within the scope of the Countywide Plan (CWP) Program EIR
- Projects Potentially Eligible for CEQA Guidelines 15183 (Projects Consistent with a Community Plan or Zoning) Exemption
- Criteria and Process for Addendum to the CWP PEIR
- Focusing Scope of Supplemental/Subsequent of Project EIRs based on results of technical studies conducted for this SB 2 effort

Deliverables for this task will include:

- Draft Tiering Guide

B.4 Approval

This task includes up to two iterations of revisions to the draft guidelines prepared in Task 2.3 (both for project applicants and County staff). Deliverables for this task will include:

- Revised and Final Tiering Guide

Project Management and Coordination

The above tasks also include time and budget to cover PlaceWorks' Project Manager and Assistance Project Manager participation in team conference calls and meetings as on-going project management and coordination for the duration of the project. Our cost estimate is based on the following participation and schedule:

- Up to 6 conference calls
- Up to 2 in-person meetings
- Project Management for estimated 18 months
