**Briefly describe the general nature of the contract:** This agreement with Steris Corporation (Steris) will allow ARMC to receive service repairs and preventative maintenance on Steris sterile processing equipment. Steris is an expert in industrial steam sterilization, which is used to eliminate living organisms, such as bacteria, fungi, viruses and spores to properly disinfect reusable surgical instruments. Sterilization and disinfection of steel-hardened surgical instruments like scalpels, forceps, retractors, and scissors are very important to prevent infection and reduce extra cost of repairs and replacement of surgical instruments
