G.32 Relationship of the Parties

Nothing contained in this Contract shall be construed as creating a joint venture, partnership, or employment arrangement between the Parties hereto, nor shall either Party have the right, power or authority to create an obligation or duty, expressed or implied, on behalf of the other Party hereto. In the performance of this Contract, Consultant, its agents and employees, shall act in an independent capacity and not as officers, employees, or agents of the County of San Bernardino. Any provision of this Contract that may appear to give the County any right to direct the Consultant concerning the details of performing the services/Scope of Work, or to exercise any control over such performance, shall mean only that the Consultant shall follow the direction of the County concerning the end results of the performance.

G.33 Conflict of Interest

Consultant shall make all reasonable efforts to ensure that no conflict of interest exists between its officers, employees, or subcontractors and the County. Consultant shall make a reasonable effort to prevent officers, employees, subcontractors, or members of governing bodies from using their positions for purposes that are, or give the appearance of being motivated by a desire for private gain for themselves or others such as those with whom they have family business, or other ties. Officers, employees, and agents of cities, counties, districts, and other local agencies are subject to applicable conflict of interest codes and state law. In the event the County determines a conflict of interest situation exists, any increase in costs, associated with the conflict of interest situation, may be disallowed by the County and such conflict may constitute grounds for termination of the Contract. This provision shall not be construed to prohibit employment of persons with whom

Consultant's officers, employees, or agents have family, business, or other ties so long as the employment of such persons does not result in increased costs over those associated with the employment of any other equally qualified applicant.

Consultant understands per the attached Conflict of Interest and Political Reform Act Obligations (Exhibit D) that the Assessor has determined Consultant meets Disclosure Determination number 1 and that no disclosure is required.

G.34 Release of Information

No news releases, advertisements, public announcements or photographs arising out of the Contract or Consultant's relationship with County may be made or used without prior written approval of the County.

G.35 Strict Performance

Failure by a party to insist upon the strict performance of any of the provisions of this Contract by the other party, or the failure by a party to exercise its rights upon the default of the other party, shall not constitute a waiver of such party's right to insist and demand strict compliance by the other party with the terms of this Contract thereafter.

G.37 Subpoena

In the event that a subpoena or other legal process commenced by a third party in any way concerning the Services provided under this Contract is served upon Consultant or County, such party agrees to notify the other party in the most expeditious fashion possible following receipt of such subpoena or other legal process. Consultant and County further agree to cooperate with the other party in any lawful effort by such other party to contest the legal validity of such subpoena or other legal process commenced by a third party as may be reasonably required and at the expense of the party to whom the legal process is directed, except as otherwise provided herein in connection with defense obligations by Consultant for County.

G.38 Termination for Convenience

The County and the Consultant each reserve the right to terminate the Contract, for any reason, with a thirty (30) day written notice of termination. Such termination may include all or part of the services described herein. Upon such termination, payment will be made to the Consultant for services rendered and expenses reasonably incurred prior to the effective date of termination. All such materials developed under the terms of this Contract shall acknowledge the County of San Bernardino as the funding agency and Consultant as the creator of the publication. No such materials, or properties produced in whole or in part under this Contract shall be subject to private use, copyright or patent right by Consultant in the United States or in any other country without the express written consent of County. H. INDEMNIFICATION AND INSURANCE REQUIREMENTS

H.1 Indemnification

The Contractor agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability arising out of this Contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnities. The Contractor indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

Consultant will indemnify, defend, and hold harmless County and its officers, employees, agents and volunteers, from any and all third-party claims, costs (including without limitation reasonable attorneys' fees), and losses for infringement of any United States patent, copyright, trademark or trade secret (Intellectual Property Rights) by any goods or services. If a credible claim is made or threatened, including without limitation the filing of a lawsuit against County, or County receives a demand or notice claiming actual or potential infringement or misappropriation of any Intellectual Property Rights, County will use reasonable efforts to notify Consultant promptly of such lawsuit, claim or election. However, County's failure to provide or delay in providing such notice will relieve Consultant of its obligations only if and to the extent that such delay or failure materially prejudices Consultant's ability to defend such lawsuit or claim. County will give Consultant sole control of the defense (with counsel reasonably acceptable to County) and settlement of such claim; provided that Consultant may not settle the claim or suit absent the written consent of County unless such settlement (a) includes a release of all claims pending against County, (b) contains no admission of liability or wrongdoing by County, and (c) imposes no obligations upon County other than an obligation to stop using the goods or services that are the subject of the claim. In the event that Consultant fails to or elects not to defend County against any claim for which County is entitled to indemnity by Consultant, then Consultant shall reimburse County for all reasonable attorneys' fees and expenses within thirty (30) days from date of invoice or debit memo from County. After thirty (30) days, County will be entitled to deduct any unpaid invoice or debit memo amount from any amounts owed by County to Consultant. This shall not apply to any judgment or settlement amount, which amounts County shall be entitled to notify, invoice or debit Consultant's account at any time; and County, at its sole discretion, may settle the claim or suit.

If, in Consultant's opinion, any goods or services become, or are likely to become, the subject of a claim of infringement of Intellectual Property Rights, Consultant may, at its option: (i) procure for County the right to continue using the goods or receiving the services; (ii) replace or modify the goods or services to be non-infringing, without incurring a material diminution in performance or function; or (iii) if neither of the foregoing is feasible, in the reasonable judgment of Consultant, County shall cease use of the goods or services upon written notice from Consultant, and Consultant shall provide County with a pro-rata refund of the unearned fees paid by County to Consultant for such goods or services.

H.2 Additional Insured

All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees, agents and volunteers as additional named insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

H.3 Waiver of Subrogation Rights

Consultant shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit Consultant and Consultant's

employees or agents from waiving the right of subrogation prior to a loss or claim. Consultant hereby waives all rights of subrogation against the County.

H.4 Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

H.5 Severability of Interests

H.8 Deductibles and Self-Insured Retention

Any and all deductibles or self-insured retentions in excess of \$10,000 shall be declared to and approved by Risk Management.

H.9 Failure to Procure Coverage

In the event that any policy of insurance required under this Contract does not comply with the requirements, is not procured, or is canceled and not replaced, County has the right but not the obligation or duty to cancel this Contract or obtain insurance if it deems necessary and any premiums paid by County will be promptly reimbursed by Consultant or County payments to the Consultant will be reduced to pay for County purchased insurance.

H.10 Insurance Review

Insurance requirements are subject to periodic review by County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Consultant agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of County.

H.11 Insurance Specifications

Consultant agrees to provide insurance set forth in accordance with the requirements herein. If Consultant uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, Consultant agrees to amend, supplement or endorse the existing coverage to do so.

- Create an Appeals processing interface.
- Create a Building Permits processing interface.
- Customizable "Workspace" or "Work Queue"
 - Queue that contains the to-date list of open work assigned to the Business user.
 - Prop 13 value field/column included in the to-date list.
 - A dashboard displaying relevant queue analytics.

- Business Intelligence and analytics tools for auditing, tracking, and production analysis, including dashboards for productivity that allow drill-down capabilities, and sales trends in specific areas, etc.

- Standardized documentation (forms and reports), eliminating the use of ExcelTools for reporting purposes and correspondences, and bar-coding of all official correspondences.
 - Automation of the correspondence process for all units (such as, 441D, Landlord letters, and Audit Package report).
 - Reports developed in SSRS, include a system generated BOE compliant Building Record with the APEX drawing.
 - ARC-IT generation of reports printed from the existing information system solution.
 - A feature that allows user development of custom reports (simple to moderately complex queries).
 - A feature that allows external users limited standard and ad hoc query capabilities on Assessor data within an intranet environment.
7. Personal Property Appraisal and Audit solution. Implement an efficient information systems solution to perform Business Personal Property Appraisals and Audits and automate the processing of business property statements. AIMS solution must include:
- Enhancement of the BPS Audit Program, including the ability to manage production, track audit accounts, and manage the audit list – providing a way to extract the highest pool audits per R&T 469 (currently the process and data, manipulated in Excel, are inconsistent and time consuming, requiring multiple reports);
 - The ability to perform leased equipment valuations and automates the calculation of leased equipment and X-account appraisals (currently, leased equipment and X-accounts are processed manually and in ExcelTools);
 - Automate the import of BPS factors data from California Assessors Association (Item# 12);
 - A “Tenant Improvement” component that allows for real and business property collaboration.
 - SDR/eSDR improvements:
 - Automate the import of efiles;
 - Automate export of costs and value recap to SDR/eSDR;
 - Dynamic interaction between company database and the information system solution, allowing immediate system update of changes or additions of a “point-in-time” event.
 - Requirement of reasons and notation for cost changes.
 - Enhancement of appraisal edit functions despite BPS creation via automatic rollover.
8. Appeals information capture. Provide a solution that captures appeals data and automates the import into the database.
- Database expansion (Item# 2) to accommodate specific data.
 - User interface improvement (Item# 3) for data entry form.
 - Workflow expansion (Item# 4) for improvement of business processing.
 - Content management solution to manage documentation (Item# 9).
9. Building Permit information capture. Provide a solution that captures building permit data and automates the import into the database.
- Database expansion (Item# 2) to accommodate specific data.
 - User interface improvement (Item# 3) for data entry form.
 - Workflow expansion (Item# 4) for improvement of business processing.
 - Content management solution to manage documentation (Item# 9).
10. Content Management solution (see Image Repository Migration, Item#1). Implement a solution that integrates an Imaging system that captures, stores, retrieves and displays incoming paper (in color as a default) and electronic documents, and allows for automated data extraction, movement of the images between folders and shared folders, systems, and supports annotations. This solution must:
- Integrate with the existing information systems solution, as well as other third-party solutions, as the central image repository;
 - Automate image capture and storage for the following document types, in addition to existing stored documents:
 - Appeals,
 - Building Permits,
 - High Value Corrections,
 - Correspondences, including Landlord Letters,
 - Applications and forms,

- Business Property Statements,
 - Photographs, etc.
- Include the Optical Character Recognition (OCR) feature.

ARRAY FIRM-FIXED-PRICE PROPOSAL

Technical Milestone Descriptions

Purpose

The purpose of this document is to provide additional information and explanation of the row headers in the Technical Milestone Schedule.

Definitions

Epic – A high-level view of a large body of work or complex project that can be broken down into manageable elements, such as phases, with regard to timing, and even into a number of smaller user stories, with regard to the work unit. Epics often encompass multiple teams, on multiple projects, and can even be tracked on multiple boards. Epics are almost always delivered over a set of sprints.

Spiral Model – Generally, a risk-driven software development process model, used to guide adoption of elements of another process model (such as incremental, waterfall, or evolutionary prototyping) depending upon the unique risk patterns of a given project. This representative explanation of how the specific tasks are structured into increments can vary as to the length of the increments. Tasks within different Spirals are not always the same length of time

Invoice

ARRAY shall invoice each Project Milestone in accordance with the Payment Schedule at the completion of each Sprint month.

Assumptions, Dependencies, and Risks

Purpose:

The intent of this document is to identify and document project assumptions, dependencies, and risks based upon the PIMS Modernization Project Request for Proposal; RFP Questions & Answers; the submitted Proposal Response; and contract negotiation phases.

Assumption, Dependency, and Risk Items:

1. The Firm-Fixed-Price for the PIMS Modernization Project is contingent upon a general understanding of the County's needs based upon the resources noted in the Purpose.
2. A Discovery/Sprint 0 phase must be performed for each Item listed in EXHIBIT A 1 – 13 to accurately Architect, Design, and Plan required work using AGILE SCRUM methodology.
3. The Firm-Fixed-Price is divided into three sections:
 - EXHIBIT A.1-3, including modPIMS Code Conversion, an Appraisal and Mass Appraisal solution, and Workflow Enhancement with Firm-Fixed-Price of \$15,207,703; and
 - EXHIBIT A.4-13, with proposed Firm-Fixed-Price of \$6,436,029.
 - Tier 3 Engineering Support, with proposed Firm-Fixed-Price of \$1,281,374.
4. ARC shall provide dedicated product owner(s) to support AGILE sprint development activities such as Sprint Planning, Backlog Grooming, Product Demos, etc.
5. ARRAY will provide to ARC an estimate in advance of starting each requirement for PIMS Functional subject-matter experts (SME) support, relying on the legacy ARC Assets as available.
 - Sprint 0 Architecture and Design phases;
 - Test Development, and
 - Product Demo activity.
6. Training: Relevant modPIMS training will be provided on new functions and features that differ from the like-for-like features, to include any potential gaps in modPIMS such as the user login process and back end processes.
7. Detailed technical documentation is required for the transformed modPIMS system, to include full blueprint and infrastructure documentation. Test documentation may be considered minimally viable product (MVP).
8. A PIMS code baseline freeze will be required during the EXHIBIT A.1 PIMS conversion process beginning when the code is transferred to ARRAY to begin conversion.
9. The code conversion/modernization tasks described in EXHIBIT A.1 is "Like for Like". No enhancements will be provided during Item 1 delivery except enhancements two and three.
10. The code converted in EXHIBIT A.1 will only contain Unit Tests if they currently exist in the "As-Is" PIMS code being converted. No new Unit Tests will be required.
11. The code conversion phase described in the EXHIBIT A.1 module must be completed and functionally validated before any enhancements (EXHIBIT A Items 2 – 13) can be developed. This excludes the start of any EXHIBIT A Items 2 – 13 Sprint 0 Architecture & Design activities. When technically possible enhancement development activities (EXHIBIT A.2 – 13) may be started on EXHIBIT A.1 code modules that have completed the conversion and validation process prior to all EXHIBIT A.1 modules being completed.

ARRAY FIRM-FIXED-PRICE PROPOSAL

Assumptions, Dependencies, and Risks

12. EXHIBIT A.3 "Workflow Enhancements and Expansion" requirements are considered new development activities and are not covered under EXHIBIT A.1 "Image repository Migration (FileNet/Workflow like-for-like replacement) activities.
13. The modPIMS application will be hosted in Microsoft Azure Cloud. It will be migrated to Azure as part of the EXHIBIT A.1 code conversion/modernization tasks.
14. IBM FileNet will be replaced with Laserfiche ECM product during EXHIBIT A.1 FileNet/Workflow like-for-like replacement task. "Image Repository Migration".
15. IBM DB2 Database will be migrated to Azure SQL Server Database as a Service during EXHIBIT A.1 Database "Like-for-Like" Conversion task.
16. Tasks described in EXHIBIT A.1 will use a "Big-Bang" rollout methodology. A phased rollout approach will not be required.
17. The majority of Workflow functionality is custom coded in "As-Is" PIMS VB6 modules. These will be converted during EXHIBIT A.1 code conversion tasks using the TSRI Janis Toolset to generate C# modernized code having "Like-for-Like" functionality.
18. If ARC is currently using third-party vendors or ARC itself to develop / provide enhancements described in EXHIBIT A.2-13 then that activity must be completed prior to or paused during Code Baseline Freeze in order to execute EXHIBIT A.1 code modernization activity.
19. If ARC is currently using a vendor to satisfy requirements described in EXHIBIT A.11 "Implement current GIS technologies" then the cost may change based on the number of requirements that remain for ARRAY to satisfy. This work must be completed or paused prior to EXHIBIT A.1 code modernization activity starting. ARRAY will assume some level of integration work is required.
20. EXHIBIT A.8 requirements will be fully satisfied in EXHIBIT A.4 "Database Enhancement", EXHIBIT A.5 "UI Enhancement", EXHIBIT A.3 "Workflow Enhancement and Expansion", EXHIBIT A.2 "Appraisal/Mass Appraisal", and EXHIBIT A.10 "Content Management Solution". EXHIBIT A.8 are considered duplicate requirements and costs will be removed from current estimate.
21. EXHIBIT A.9 requirements will be fully satisfied in EXHIBIT A.4 "Database Enhancement", EXHIBIT A.5 "UI Enhancement", EXHIBIT A.3 "Workflow Enhancement and Expansion", EXHIBIT A.2 "Appraisal/Mass Appraisal", and EXHIBIT A.10 "Content Management Solution". EXHIBIT A.9 are considered duplicate requirements and costs will be removed from current estimate.
22. EXHIBIT A.4 enhancement requirements are for the Azure SQL Database only. They do not include the scope to modify any necessary business logic code modules or User Interface controls to Input and return data to these DB enhancements. Cost will be adjusted accordingly for EXHIBIT A.4 to reflect this assumption.
23. EXHIBIT A.5 UI Enhancements must include the requirements to utilize the DB enhancements described in EXHIBIT A.4. EXHIBIT A.4 and EXHIBIT A.5 must be bundled and cannot be purchased individually. Costs will be adjusted accordingly for EXHIBIT A.4 to reflect this assumption.
24. The ancillary systems processes for HCD, DMV, and Address Change Cards described in EXHIBIT A.1 will be included in EXHIBIT A.12 "Automation of external information import and extract processes". The current estimate is based on high level requirements described in EXHIBIT A.12. If during Sprint 0 phase for this enhancement it is determined to be more complex than originally planned cost may change.
25. ARRAY will provide Tier 3 Engineering Support after modPIMS "Go-Live".
26. ARC will provide all Operations and Tier 1 & 2 Support post modPIMS "Go-Live".
