

San Bernardino County

Legislation Text

File #: 3191, Agenda Item #: 53

**REPORT/RECOMMENDATION TO THE BOARD OF SUPERVISORS
OF THE COUNTY OF SAN BERNARDINO
AND RECORD OF ACTION**

November 17, 2020

FROM

CORWIN PORTER, Director, Department of Public Health

SUBJECT

Agreement Funding Application to the California Department of Public Health for the Maternal, Child, and Adolescent Health and Black Infant Health Programs

RECOMMENDATION(S)

Approve and authorize the submission of a combined agreement funding application to the California Department of Public Health for the period of July 1, 2020 through June 30, 2021, for the following programs:

1. Maternal, Child, and Adolescent Health Program, in the amount of \$790,651.
2. Black Infant Health Program, in the amount of \$1,375,232.

(Presenter: Corwin Porter, Director, 387-9146)

COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Provide for the Safety, Health and Social Service Needs of County Residents.

Pursue County Goals and Objectives by Working with Other Agencies.

FINANCIAL IMPACT

This item does not impact Discretionary General Funding (Net County Cost). The combined Agreement Funding Application (application) for the Maternal, Child, and Adolescent Health (MCAH) Program, in the amount of \$790,651, and the Black Infant Health (BIH) Program, in the amount of \$1,375,232, does not require a match and consists of federal Title V, Sudden Infant Death Syndrome Program (part of Title V), State General Fund, and federal Title XIX funds.

BACKGROUND INFORMATION

The California Department of Public Health (CDPH) provides noncompetitive funding for the MCAH and BIH Programs to local health departments to promote healthy living for mothers and their families through a focus on the comprehensive health, physical, and psychosocial needs of the maternal, child, and adolescent health population. The Department of Public Health (DPH) has received funding for the MCAH Program since 1987 and the BIH Program from 1990 through 2010 and again beginning in 2014.

Through the MCAH Program, DPH performs core public health functions, including assessment, policy development, and health improvement by providing and ensuring that mothers and children, especially those with low income or limited access to services, have access to quality maternal and child health services. The MCAH Program promotes the need for appropriate levels of care to improve pregnancy outcomes and reduce maternal and infant morbidity and mortality.

The BIH Program is designed to meet the health related needs of pregnant and postpartum African-American women through a State standardized model that features group intervention to encourage empowerment and social support in the context of a life course perspective and through social service case management to link clients with the needed community and health related services.

On August 31, 2020, the County Administrative Office approved the submission of a draft of the combined application for the MCAH Program, in the amount of \$790,651, and the BIH Program, in the amount of \$1,375,232, for the period of July 1, 2020 through June 30, 2021. As required by CDPH, a draft must be submitted prior to DPH finalizing the application documents.

On September 11, 2020 and September 22, 2020, CDPH provided DPH final approval of the MCAH portion of the application and of the BIH portion of the application, respectively. The combined application is for the period of July 1, 2020 through June 30, 2021 and due for submission to CDPH by December 1, 2020.
