COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Operate in a Fiscally-Responsible and Business-Like Manner.

Provide for the Safety, Health and Social Service Needs of County Residents.

FINANCIAL IMPACT

Approval of the recommendation will not result in the use of Discretionary General Funding (Net County Cost) as the total aggregate cost of \$1,500,000 is funded by State Medi-Cal, Federal Medicare, private insurances, and other departmental revenue. Funding sources may change in the future pending any legislative activity related to the repeal and/or replacement of the Affordable Care Act. Sufficient appropriation and revenue are included in the Arrowhead Regional Medical Center (ARMC) 2020-21 budget and will be included in future recommended budgets.

BACKGROUND INFORMATION

Approval of this recommendation will allow ARMC to obtain expertise and guidance in determining the advantage of establishing a Managed Service Organization (MSO) and/or an Independent Practice Association (IPA). An MSO is an organization that examines total costs of providing care to the community and will allow the County to identify areas for performance improvement and potential cost savings. An IPA is an association of independent physicians, or other organizations that contracts with independent care delivery organizations, and provides services to managed care organizations on a negotiated per capita rate, flat retainer fee, or negotiated fee-for-service basis. The MSO will work with providers to review requests for healthcare services to validate the need, and use best demonstrated industry practices to optimize care in low

cost settings, thus avoiding more costly utilization (inpatient, emergent, and specialty care).

With value based purchasing becoming the new norm in healthcare, ARMC continues to align itself with a structure that will allow for quality health care at appropriate costs, often achieved with MSOs and/or IPAs. ARMC will use the expertise of the two vendors to enhance the current delivery system through analysis of current structure and operationalizing best demonstrated practices.

An MSO and/or IPA is the first step in moving towards a Clinically Integrated Network (CIN). A CIN will allow County facilities and providers to partner with other healthcare providers and facilities to better serve the community. Each vendor has specific expertise in developing and maintaining MSOs, IPAs, and CINs.
