FINANCIAL IMPACT

Approval of this item will not require the use of additional Discretionary General Funding (Net County Cost). Sufficient appropriation of \$253,510.04 is included in the 2021-22 County Administrative Office budget to fund the license renewal cost not-to-exceed \$248,730.46 for the one-year term from October 6, 2021 to October 5, 2022, and the S-Docs renewal cost of \$4,779.58 for the one-year term from December 31, 2021 through December 30, 2022.

BACKGROUND INFORMATION

On September 29, 2020 (Item No. 4), the Board of Supervisors (Board) approved Contract No. 20-916 with Incapsulate, LLC (Incapsulate) for implementation of the Customer Relationship Management (CRM) system for the period September 29, 2020 through September 28, 2023, with two one-year options to extend the contract, for an amount not to exceed \$253,693.38. This included one-time costs for implementation of \$147,100, ongoing costs for licenses, and maintenance and support with Incapsulate of \$35,000 for the first year of the contract, \$35,525 for the second year of the contract, and \$36,068.38 for third year of the contract. On September 29, 2020 (Item No. 4), the Board also approved a contract for \$118,549.54 with Carahsoft, for licenses, and maintenance and support related to Salesforce cloud services, which is used in conjunction with the CRM system developed by Incapsulate. Incapsulate developed and implemented the CRM system, including implementation of the Salesforce cloud service. The Salesforce cloud service is integral to the operation of the CRM system. Carahsoft is the provider of the Salesforce cloud service product.

On December 15, 2020 (Item No. 7), the Board approved Amendment No. 1 to the Incapsulate Contract No. 20-916 for additional work to create three additional intake forms for \$9,264, and also approved a quote with Carahsoft for \$117,263.43 for five additional business units, 40 additional Service Cloud licenses, the S-Doc add-on, and \$9,588 for the Zapier add-on. The five additional business units would allow each District to manage and customize their individual CRM system based on their needs and processes, with no overlap with the other Districts; the "S-Doc" add-on would allow the printing of certificates from the CRM system to mimic current District processes; and the Zapier add-on for integration with the CRM related to scheduling outreach events. Should additional work from Incapsulate be necessary, under Recommendation No. 4, the Chief Executive Officer or County Chief Operating Officer would be authorized to approve any financial change orders up to \$25,000 with Incapsulate.

Per County Policy 11-05, contracts containing non-standard terms must be approved by the Board. The Carahsoft Quote incorporates the Salesforce.com (SFDC) Terms of Use specific to Salesforce purchases through Carahsoft and is the SFDC standard commercial contract, which includes terms that differ from the standard County contract and omits certain County standard contract terms. County Counsel has reviewed the current SFDC Terms of Use and determined that there have been no substantive changes to the terms approved by the Board on September 29, 2020 (Item No. 4).

Under Recommendation No. 3, S-Docs allows printing of certificates from the CRM system. The S-Docs Master Subscription Agreement is its standard commercial contract, which includes terms that differ from the standard County contract and omits certain County standard contract terms. The Board approved the non-standard terms for S-Docs on December 15, 2020 (Item No. 7). County Counsel has reviewed the current S-Docs Master Subscription Agreement and determined that there have been no substantive changes to the terms approved by the Board.

PROCUREMENT

The original contract with Carahsoft for Salesforce licenses is a result of a competitive procurement. On October 18, 2019, Request for Proposal No. CAO120-CAO04-3558 (RFP) was released via the County's electronic procurement network (ePro) for a customer relationship management software solution including implementation and configuration to meet the County's requirements. Incapsulate was selected from six proposals and scored the highest on qualifications, experience, cost, financial review, technical review, references, and interview/presentation/demonstration. The recommended actions will renew the licenses

needed for the CRM system to perform.
