#### **COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES**

**Create, Maintain and Grow Jobs and Economic Value in the County.**

**Ensure Development of a Well-Planned, Balanced, and Sustainable County.**

#### **FINANCIAL IMPACT**

Approval of this item will not result in the use of additional Discretionary General Funding (Net County Cost). Sufficient appropriation and revenue to complete this action have been included in the Land Use Services Planning Division 2021-22 budget. All costs of processing this application are paid by the applicants.

### **BACKGROUND INFORMATION**

The applicant, Maria Sosa, has requested an amendment to the Agua Mansa Industrial Corridor Specific Plan and a Conditional Use Permit (CUP) to legalize an existing pallet yard located at 19744 El Rivino Road. The adjacent property owner, Maria Ruiz, has joined in the request for the specific plan amendment to include her property located at 19734 El Rivino Road. The subject properties have Bloomington addresses, but they are not part of the Bloomington planning area of the Countywide Plan and are not considered part of the affected county area of Bloomington in the US census data.

The proposed specific plan amendment from Agua Mansa Specific Plan - Single-Family Residential (AM/SP-SFR) to Agua Mansa Specific Plan - Medium Industrial (AM/SP-MED IND) would allow for a wide range of industrial activities, including manufacturing, material processing, assembly, and warehousing. The subject properties are adjacent to existing AM/SP-MED property, recently developed with a logistics warehouse. Approval of the recommendations would bring the existing pallet yard into compliance with the County Code and specific plan development standards, subject to completion of the conditions specified in the CUP, including street improvements and landscaping. There is no industrial use on the Ruiz property, but the owner would like to have a consistent land use designation for potential future development of her property. A detailed project description and planning analysis is included within the Planning Commission staff report provided with this report/recommendation.

In accordance with the California Environmental Quality Act (CEQA) and the State CEQA Guidelines, an Initial Study (IS) was prepared to identify potential impacts the proposed project may have on the environment, as well as mitigation measures that may be necessary to reduce said impacts to less-than-significant levels. The IS concludes that the project will not have a significant adverse impact on the environment with the implementation of mitigation measures contained in the IS, which have been incorporated in the conditions of approval for the CUP. Therefore, the recommendation includes the adoption of a Mitigated Negative Declaration and filing a Notice of Determination.

The San Bernardino County Development Code requires a recommendation from the Planning Commission for final action by the Board of Supervisors to amend a specific plan. On July 8, 2021, the Planning Commission considered this proposal in a public hearing. Two speakers provided general comments during the public hearing. The Planning Commission recommended approval of the project by a unanimous vote of 4-0 (Fourth District Commissioner Absent).
