BACKGROUND INFORMATION

The recommended action will amend the existing license agreement with the Yucaipa Valley Water District (YVWD) by extending the term of the license due to YVWD's exercise of the first of its two existing five-year extension options, for the period of July 1, 2022 through June 30, 2027, following a permitted month-to-month holdover for the period of April 1, 2022 through June 30, 2022, and adjust the fee schedule for the non-exclusive use of approximately 2,500 square feet of District land to operate and maintain an existing water well site along the Potato Creek Spreading Grounds in Yucaipa.

On April 23, 2002 (Item No. 38), the Board of Supervisors (Board) approved a five-year license, Agreement No. 02-298, with three five-year options to extend the term with YVWD to construct, operate, and maintain a well site and appurtenant facilities in the District's right-of-way in the Potato Creek Spreading Grounds in Yucaipa. The District has access to the well site area at all times for the purpose of inspecting the property and for any routine and emergency maintenance of construction repair work on the District's facilities. The original term of the license was from April 1, 2002 through March 31, 2007. Since the license was originally approved, the Board has approved three amendments to extend the term of the license agreement, adjust the annual fee, add extension options, and update standard license agreement language.

<u>Amendment No.</u>	<u>Approval Date</u>	<u>Item No.</u>
1	May 15, 2007	49
2	March 13, 2012	53
3	March 7, 2017	67

The District requested that the Real Estate Services Department (RESO) prepare an amendment to extend the term of the revenue license agreement due to YVWD's exercise of the first of its two existing five-year extension options for the period of July 1, 2022 through June 30, 2027, following a permitted month-to-month holdover for the period of April 1, 2022 through June 30, 2022. Either party may terminate this revenue license agreement by giving 90-days' notice.

Staff has reviewed the recommended action pursuant to the California Environmental Quality Act (CEQA) and has determined that it does not constitute a project. Accordingly, no further action is required under CEQA.
